SUPPLEMENTARY INFORMATION:

Title: Information Return for Real Estate Mortgage Investment Conduits (REMICs) and Issuers of Collateralized Debt Obligations.

OMB Number: 1545-1099.

Form Project Number: Form 8811.

Abstract Current regulations require real estate mortgage investment conduits (REMICs) to provide Forms 1099 to true holders of interests in these investment vehicles. Because of the complex computations required at each level and the potential number of nominees, the ultimate investor may not receive a Form 1099 and other information necessary to prepare their tax return in a timely fashion. Form 8811 collects information for publishing by the IRS so that brokers can contact REMICs to request the financial information and timely issue Forms 1099 to holders.

Current Actions: There is no change in the form previously approved however, an increase in the estimated annual responses will increase the overall estimated burden by 8,760 hours.

Type of Review: Revision of a currently approved collection.

Affected Public: Business or other for-profit organizations.

Estimated Number of Responses: 3,000

Estimated Time Per Respondent: 4 Hours 23 minutes

Estimated Total Annual Burden Hours: 13,140

The following paragraph applies to all the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number.

Books or records relating to a collection of information must be retained if their contents may become material in the administration of any internal revenue law. Generally, tax returns and tax return information are confidential, as required by 26 U.S.C. 6103.

Desired Focus of Comments: The Internal Revenue Service (IRS) is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed

collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., by permitting electronic submissions of responses.

Comments submitted in response to this notice will be summarized and/or included in the ICR for OMB approval of the extension of the information collection; they will also become a matter of public record.

Approved: November 7, 2022.

IRS Tax Analyst.
